

WHAT IS EXPANSIS?

ExpanSIS is a secure, web-based student information system for multi-institution course and program management. It contains institution, instructor, course, student, enrollment, program, and revenue information.

Institutional partners routinely use ExpanSIS to enroll students in consortium courses, pull up class rosters and report grades. The data are also used in program decision-making, invoicing, benchmarking, preparing funding agency reports and conducting research projects.

ExpanSIS does not require special software or hardware. Data are transmitted over a secure Internet connection.

ALLIANCE NAME

Institution: KSU Semester: Summer 2006

University: KSU

Enrollment for Super Student

Student Name: STUDENT, SUPER
Home University: Kansas State University

* Credits: 3

* Status: Enrolled

Original Tuition: \$1195.00
Refund: 0.00
Adjustment: 0.00

Reports – quickly retrieve numbers by institution and program, used in calculating financial data and program benchmarking.

Student Tracking – monitor student progress.

"With a consortial agreement in place, ExpanSIS meets FERPA requirements; however, students sign a form acknowledging that their information will be shared with consortium partners."

Kathleen Jones, Assistant Vice President for Enrollment and Registrar, Iowa State University, and Registrar Team Chair for Great Plains IDEA.

Student Information System to Extend and Span Multi-Institutional Education

Let ExpanSIS help you meet your data exchange needs!
